

ERICK A. GOLO

has successfully passed

Operational Risk Management

The course included the following areas:

1. An Overview of the Operational Risk Management
2. The Operational and IT Risks and Operational Risk Management
3. The Risk Management Process Cycle
4. The Operational Risk Management Tools

The course also included a pretest and a final test.
75% of the answers had to be correct in the final test to pass the course.
